The Retired Engineers Section of SE London/NW Kent would like to invite all members of the History of Technology TPN, IET members and the public to their lectures.

The lectures are held in the Large Hall, 4th Floor, Bromley Central Library, High Street, Bromley, Kent. The Library, which is easy to find, is adjacent to the Churchill Theatre opposite the Glades Shopping Mall in the centre of town and only a short walk from Bromley South railway station. Bromley is well served by buses and has many car parks although traffic can be heavy in the mornings. Tea/coffee is available from 10.00am

Of particular interest are:

Wed 02 April 2008	10.00 for 10.30am	'Restoration of the Crossness Engines' <i>In 1858 Parliament was suspended due to the appalling stench from the Thames, virtually an open sewer. Cholera was a major health hazard & funds were provided for the engineer Sir Joseph Bazalgette to create the London Sewer system including the pumping station at Crossness with the world's largest rotary beam engines.</i> <i>By David Wilkinson - IET Fellow and volunteer member of the Crossness Engines Trust</i>
Wed 07 May 2008	10.00 for 10.30am	'The History of Radar to 1945' <i>by Phil Judkins - Chairman of the Defence Electronics History Society</i>
